

# Educational Psychology Services with HSR Psychology

At HSR Psychology we maximise the wellbeing and potential of all children and young people by providing immediate access to our team. Our vision is for all children and young people to reach their potential by having their needs met at home, school and in the community so they can be happy, safe, and ready to cope with life's challenges.

We deliver a supportive Educational Psychology service which is person-centered, needs-led and bespoke in order to take a comprehensive and holistic approach.

## Our team currently consists of:

Educational Psychologists

Specialised Assessors

Assistant Psychologists

Psychotherapists

## Benefits of our service include:

- Our educational and child psychology services that are flexible, consistent, and competitively priced
- We keep the child or young person's needs at the centre of decisions made
- We provide parents, carers, and education professionals with the skills they need in order to support children and young people
- We provide immediate access to our team of psychologists
- We provide bespoke solutions to suit all budgets and requirements
- We provide an educational and child psychology service which works with children and young people aged 0-25
- Our recommendations are realistic and achievable

We believe children and young adults should be  
**happy, safe and ready.**

Whether or not you are an educational setting looking for regular or ad-hoc support, or a parent or carer looking to access us privately, we will offer a support package to meet the needs of your request.

## Service Level Agreements – Schools / Educational Settings

Our educational and child psychology services are flexible, consistent, and competitively priced.

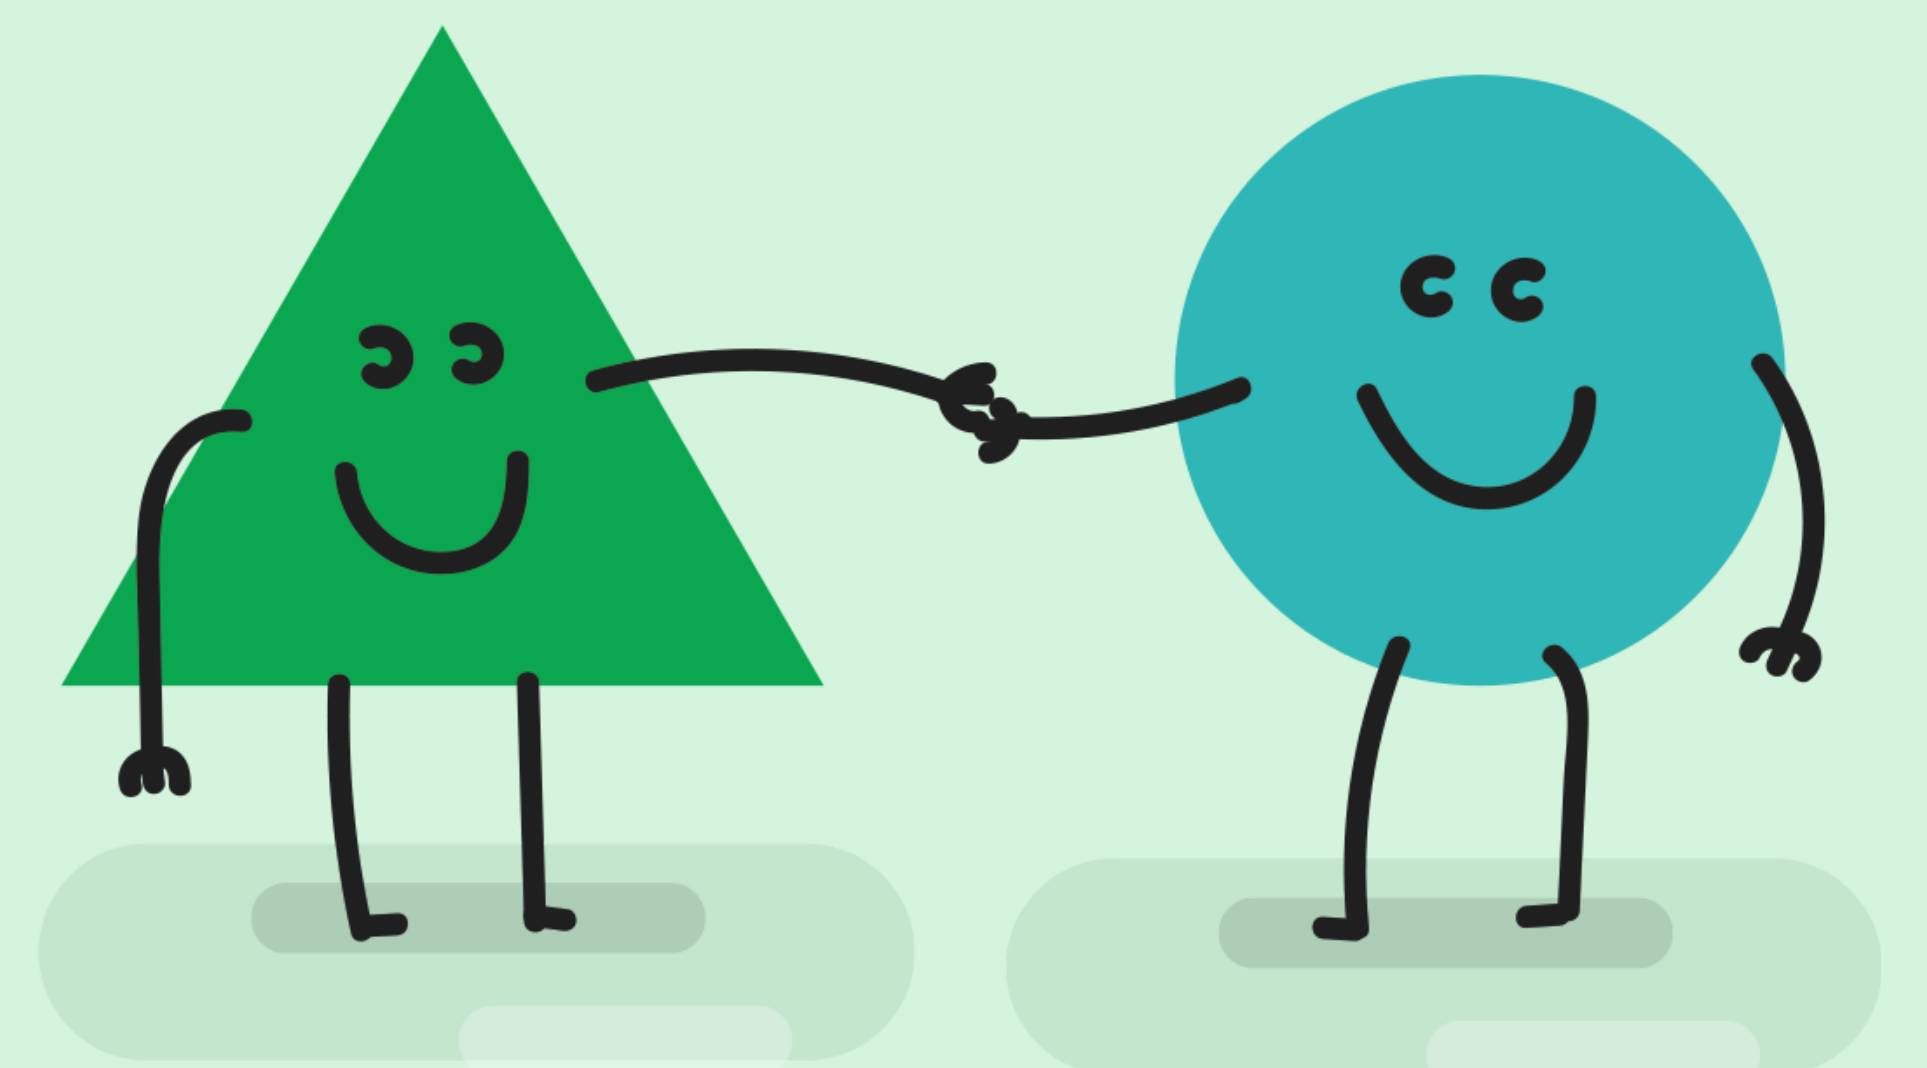

We are available to work in an ongoing and an ad hoc capacity depending on your school's requirements for psychology input.

The SLA would start with a primary consultation to act as a co-ordination meeting. This consultation will be to discuss the specifics of your request and come up with a plan of action for EP intervention such as planning for school visits; consider how much EP intervention is required; face-to-face vs. remote requirements; and the overall goals of our involvement with your setting.

## Individual Parent / Carer Referrals

Are you seeking a private Educational Psychology report to support your EHCP application? Or want to see how we could help your child's educational setting in providing the support they need to succeed? HSR Psychology may be able to help.

We can offer an initial consultation with our team to look into your goals with us and provide a plan moving forward. This may look like our team attending school to observe your child; having a meeting with school to provide recommendations for SEN; developing a detailed report to support an EHCP application and for future use with professional bodies. We will provide feedback as we go and ensure steps are taken in order to provide a well-rounded approach to support your child's need.

We believe children and young adults should be  
**happy, safe and ready.**

## Specific Learning Assessments

If you are looking for a one-off assessment for yourself or child, we can offer specific assessment and report packages for the following:

Specific  
Learning  
Difficulties  
[SpLD]

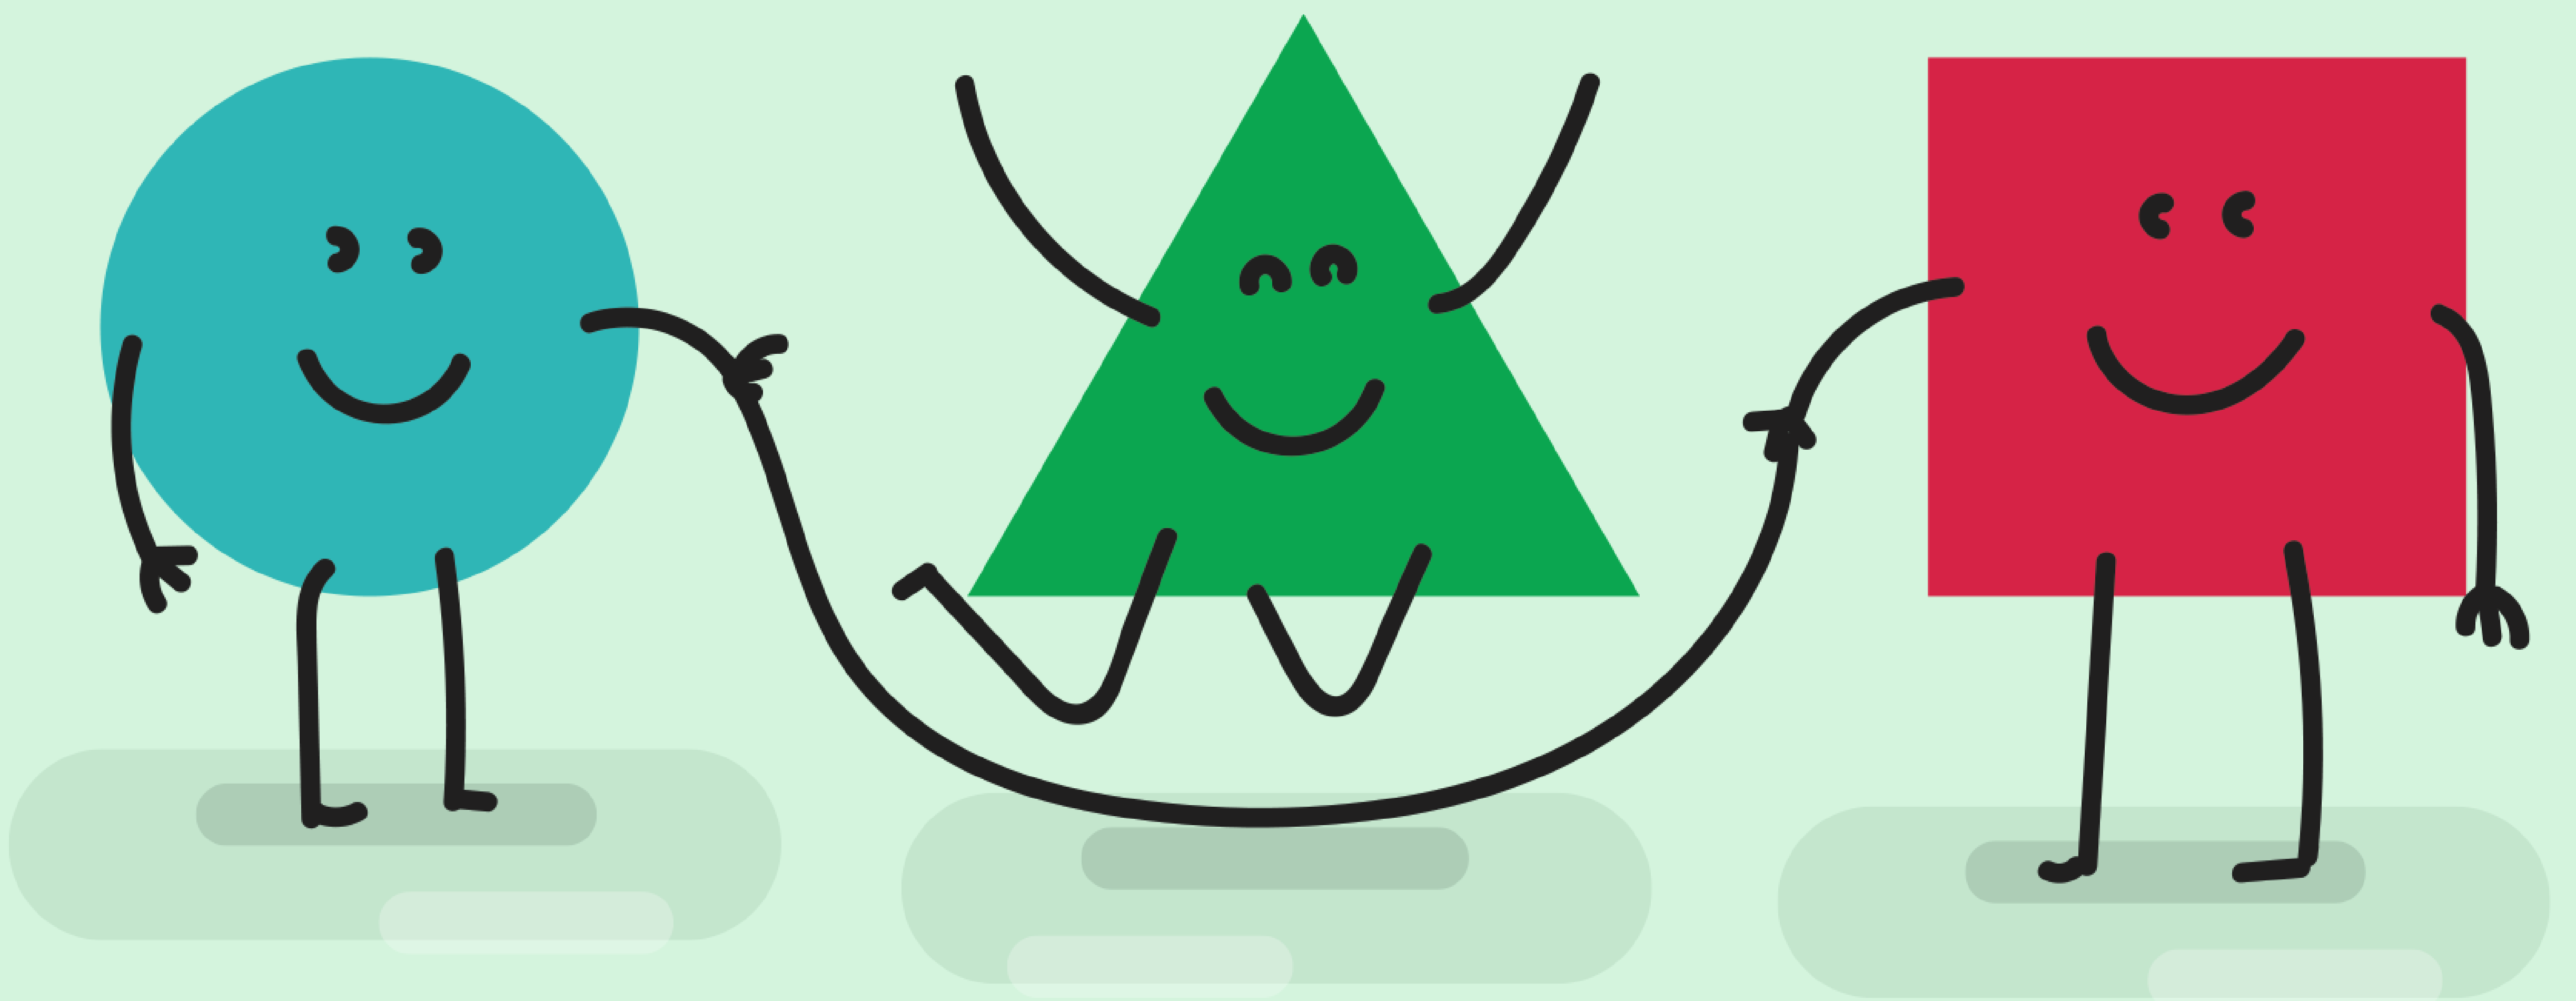

Dyslexia

Disabled  
Student  
Allowance  
[DSA]

These assessments take place with our specialist assessor at our Manchester City Centre clinic.

An appointment with our specialist would consist of targeted assessments to produce a diagnostic report with recommendations for on-going educational support. The report produced will be bespoke based on individual needs and strengths assessed within the appointment.

If you are interested in accessing our Specific Learning Assessment service, do reach out so our team can discuss your request and provide next steps.
